Chief Information Officer Named to India's Top 100 CIOs List

STAMFORD, CT – Rain Carbon Inc., a leading global producer of carbon-based and chemical products, today announces that Sridhar Suswaram – chief information officer for Rain Carbon's parent company, Rain Industries Limited – has been named one of India's Top 100 CIOs during the Seventh Edition Big CIO Show & Awards event in Mumbai.

“This is well-deserved recognition for Sridhar *(at left in photo)* and his team,” said Rain Carbon President Gerry Sweeney. “During the past two years, he and his team have developed great new websites for Rain Carbon and our parent company, and they provide vital support in many other ways that enhance communication, collaboration, and information storage and sharing across our company.”

The Top 100 CIOs award is presented by Trescon, a global business events and consulting firm serving corporations, governments and individuals.

About Rain Carbon Inc.

Rain Carbon Inc. is a leading vertically integrated global producer of carbon-based and chemical products that are essential raw materials for staples of everyday life. Rain Carbon operates in two business segments: Carbon and Chemicals. The company's Carbon business segment converts the by-products of oil refining and steel production into high-value carbon-based products that are critical raw materials for the aluminum, graphite, carbon black, wood preservation, titanium dioxide, refractory and several other global industries. Rain Carbon's Chemicals business segment extends the value chain of its carbon processing through the downstream refining of a portion of this output into high-value chemical products that are critical raw materials for the specialty chemicals, coatings, construction, petroleum and several other global industries.
